50	329	165	110	82

\*AAA "Your Driving Costs 2006" with fuel @ \$3.00 per gallon for average car driven 15,000 miles per year.

<sup>2</sup>Variable costs include gas, tires and maintenance for the actual commute miles driven, but do not include ownership costs such as finance charges, insurance, license, registration, taxes or depreciation.

Ownership costs would typically add about \$450 per month to these costs.
