

Notes:

1. The trade-offs of benefits, costs and impacts of the alternatives and options will be discussed in the project's Alternatives Analysis. Findings in the Alternatives Analysis and public comment on the Alternatives Analysis will be used by the region to select a Locally Preferred Alternative.
2. **In addition to the EmX alignment and length alternatives illustrated on this map, the project's Alternatives Analysis will also consider the No-Build Alternative and the Transportation Systems Management (TSM) Alternative, both of which are bus-based alternatives and are not illustrated on this map.**
3. Park & Ride lots and EmX station locations are approximate.

Draft Alternatives Analysis Range of Build Alternatives and Design Options

EmX Build Alternatives

- 6th-7th Avenues
- 13th Avenue
- 7th Place
- EmX Stations
- Park & Ride
- Franklin EmX
