

Point2point

Sample Employee Survey

Point2point at Lane Transit District is pleased to partner with **EMPLOYER** in exploring how we can improve the commute options that are available to its employees and reduce parking demand at the worksite.

Point2point is the local transportation options program that helps businesses and individuals avoid traffic congestion, improve air quality, and save money by using transportation alternatives to driving alone.

To kick off the process, we are asking you to complete a short survey about your commute to work. It will help us understand how you commute now and your interest in new ways of commuting.

The survey will only take a few minutes to complete, and your answers will remain confidential.

At the end of the survey, you will have the opportunity to enter a drawing to win a \$50 Fred Meyer Gift Card.
