Closing the Gap from Ideation to Implementation

Why are we here?

Problem

- LTD serves a community that has varying service needs and preferences
- Effective public engagement strategies are critical to identifying and addressing these varying needs
- Without meaningful public engagement, LTD is limited in its ability to deliver positive outcomes for the community

Desired Outcome

- Create a framework for engagement that helps LTD better understand community expectations
- Begin to re-build community trust and confidence in LTD
- Successfully and confidently deliver projects and programs that help LTD achieve its vision of a more connected, sustainable, and equitable community

What Will It Take?

Meaningful Public Involvement

6. Document and share community's impact on decisions

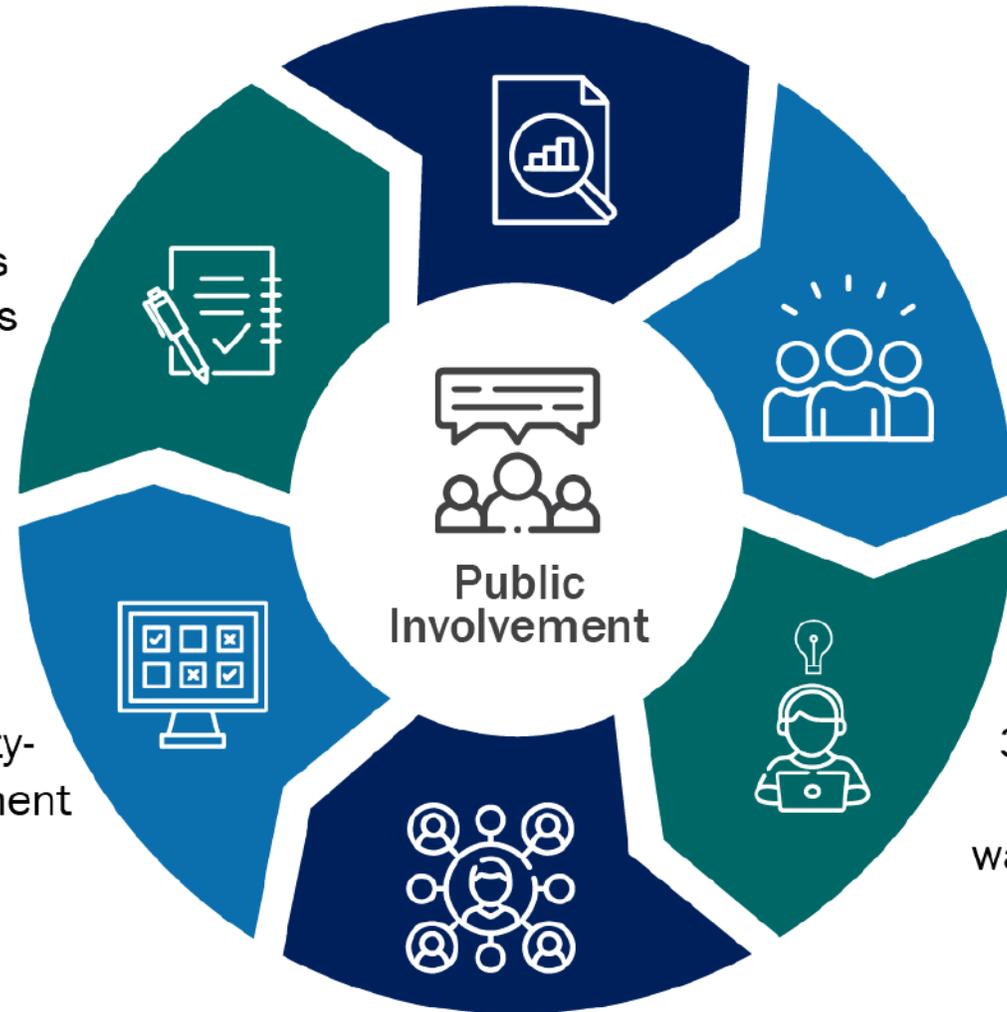

5. Use community-preferred engagement techniques

4. Involve broad representation of community

3. Understand community wants and needs

2. Build durable community relationships

1. Understand community demographics

And Beyond

- Have a “trigger” point to evaluate if you really do have support
- Consider the scale of project so you can retain some benefits or scale up over time, beginning with a demonstration
- Continue to treat those who have concerns with respect and maintain continuous communication
