AIS Title: LTD Tasks 12-33 – Proposed Projects for STIF Formula Funding

Prepared By: Kathleen Flynn, Grant Specialist

Action: Discussion and Feedback

Agenda Item Summary:

The Lane Transit District (LTD) Statewide Transportation Improvement Fund (STIF) Advisory Committee will continue to review LTD's proposed projects for STIF Formula Funding at its November 5, 2026, meeting. For the upcoming FY28-FY29 STIF Formula biennium, LTD proposes either continued or new use of STIF Formula Funds to support the following services and programs:

Task 12: Fixed Route Service – Supports fixed route service within Lane Transit District. FY28-FY29 STIF-F funding: $7,000,000.

Task 13: Mobility On Demand Pilot – These funds will support additional mobility on demand pilot programs. Match for potential STIF Discretionary funds. FY28-FY29 STIF-F funding: $160,000.

Task 14: K-12 Student Pass Program – All K-12 students in Lane County have access to a free LTD fixed route bus pass. FY28-FY29 STIF-F funding: $1,784,728.

Task 15: Veterans Fares – Starting December 1, 2026, all veterans in Lane County will have access to a free LTD fixed route bus pass. FY28-FY29 STIF-F funding: $50,000.

Task 16: Low-Income Fare Program – This task provides free transit passes for low-income populations. Social service agencies purchase passes at a reduced rate for distribution to clients. FY28-FY29 STIF-F funding: $800,000.

Task 17: Mobility Services Fleet Replacement Vehicles – This task provides for the purchase of new Mobility Services vehicles for use on LTD's RideSource service as well as rural services in locations such as Cottage Grove, Florence, and Oakridge. FY28-FY29 STIF-F funding: $1,209,059.

Task 18: Fixed Route 40-Foot Vehicle Replacement – Matching funds for federal grant to purchase new 40-foot vehicles for LTD's fixed route service. FY28-FY29 STIF-F funding: $3,802,000.

Task 19: Fixed Route 60-Foot Vehicle Replacement – Matching funds for federal grant to purchase new 60-foot vehicles for LTD's fixed route service. FY28-FY29 STIF-F funding: $2,704,000.

Task 20: New Downtown Circulator 40-Foot Vehicle – Matching funds for pending STIF Discretionary grant to purchase a new 40-foot vehicle to operate LTD's Downtown Circulator (Route 1). FY28-FY29 STIF-F funding: $180,000.

Task 21: New Diamond Express 40-Foot Vehicle – Matching funds for pending STIF Discretionary/Intercommunity grant to purchase a new vehicle to operate LTD's Oakridge Diamond Express service. FY28-FY29 STIF-F funding: $180,000.

Task 22: Bikeshare 2.0 - Capital – Matching funds to purchase fleet of shared pedal and pedal-assist e-bikes and docking stations located within 3 miles of LTD transit stops. Match for other local, state, and/or federal funding. FY28-FY29 STIF-F funding: $1,248,542.

Task 23: Transit Access and Safety Improvement Program – LTD will solicit requests from and allocate funding to jurisdictional roadway owners for transit safety and access project proposals. FY28-FY29 STIF-F funding: $100,000.

Task 24: Community Outcome Initiative Pilot – Fund mobility pilots designed to improve community outcomes related to housing, education, public health, and workforce development. FY28-FY29 STIF-F funding: $30,000.

Task 25: ATTAIN Grant Match – Regional MESH (Mobility-Enabling Service Hub) will create a regional mobility management platform, design and deploy on-demand transit in a low-income school district, and optimize existing fixed-route rural transit service. Data from trip queries from the Transit trip planning app will inform future transit planning and performance management. Match for federal ATTAIN (Advanced Transportation Technology and Innovation) grant. FY28-FY29 STIF-F funding: $1,134,000.

Task 26: Rural Services Pilot Match – Conduct pilot deployments of rural transit services throughout Lane County to evaluate operational performance, community benefits, and suitability of various service models across distinct rural contexts. Match for STIF Discretionary and/or Intercommunity Funds. FY28-FY29 STIF-F funding: $94,400.

Task 27: Florence Mobility Hub Match – Place-holder match for possible future state and/or federal funds for construction and related expenses of building a Mobility Hub in Florence. Funding request for federal and/or state funds to be made in FY28. FY28-FY29 STIF-F funding: $25,000.

Task 28: Fare Management - Procure and implement a new fare collection system including software and related equipment and infrastructure to serve LTD and regional transit. Potential match for future federal funds. FY28-FY29 STIF-F funding: $3,900,000.

Task 29: Downtown & Riverfront Circulator Match – Match for pending STIF Discretionary grant to continue the Downtown Loop pilot serving Eugene's Riverfront and Downtown areas. FY28-FY29 STIF-F funding: $206,574.

Lane Transit District
Agenda Item Summary (AIS)

Task 30: RideSource Facility Expansion Match – This is the planning phase of a project that will increase the capacity and functionality of LTD's existing RideSource facility to better support reliable and responsive paratransit services. FY28-FY29 STIF-F funding: $250,000.

Task 31: Bikeshare Operations – This task creates a fund to operate bikeshare services, with LTD as the regional bikeshare program contract owner as proposed by the Regional Bikeshare 2.0 Plan. FY28-FY29 STIF-F funding: $485,000.

Task 32: Airport Shuttle Match – This task enables LTD to initiate development of a potential new airport shuttle route in partnership with the City of Eugene Airport. Potential match for future STIF Discretionary and other local funds. FY28-FY29 STIF-F funding: $10,000.

Task 33: Corvallis/Eugene Pilot Match – Provide match for potential STIF Discretionary/Intercommunity funds for a pilot program for a fixed route bus service between Eugene and Corvallis. FY28-FY29 STIF-F funding: $75,000.

STIF FORMULA FUNDS

FORMULA FUND OVERVIEW

The **STIF Formula Fund** program distributes 90% of the revenues generated in Lane County by formula. Lane Transit District (LTD) is the entity authorized to distribute STIF Formula Funds allocated to Lane County, also known as the "Qualified Entity (QE)." There are no match requirements for STIF Formula Funds. The STIF **Formula Fund Plan** describes how STIF Formula funds will be spent and therefore establishes how Qualified Entities (QEs) may or may not use STIF Formula funds. The STIF Formula Fund Plan is made up of projects, tasks within those projects, and planned funding sought.

PROJECT SOLICITATION

The local STIF Formula Fund application process for the FY2028-FY2029 biennium covering the period from July 1, 2027, through June 30, 2029, closed on October 8, 2026. Transit service providers in Lane County interested in receiving STIF Formula Funds for this biennium fill out an online project application and submit to LTD, the QE.

STIF ADVISORY COMMITTEE FORMULA FUND CONSIDERATIONS

The STIF Advisory Committee is responsible for recommending to the QE which projects to approve or reject, and how those projects should be prioritized. The STIF Advisory Committee must consider specific criteria when reviewing projects and additionally consider how the projects will support the goals of the Oregon Public Transportation Plan. Additionally, LTD's sub-allocation estimate should be a starting point for the STIF Plan and funding prioritization process.

Advisory Committee Criteria

The Advisory Committee shall consider the following criteria when reviewing STIF Formula Fund projects:

- Whether the project would:
    - increase the frequency of bus service to communities with a high percentage of Low-Income Households;
    - expand bus routes and bus services to serve communities with a high percentage of Low-Income Households;
    - reduce fares for public transportation in communities with a high percentage of Low-Income Households;

- result in procurement of buses that are powered by natural gas or electricity for use in areas with a population of 200,000 or more;
- improve the frequency and reliability of service connections between communities inside and outside of the QE's service area;
- increase the coordination between Public Transportation Service Providers to reduce fragmentation in the provision of public transportation service;
- implement student transit services for students in grades 9 through 12;
- provide services for older adults and people with disabilities; or
- provide support for the operation of existing services.

- Whether the project would maintain an existing, productive service;
- The extent to which the project goals meet public transportation needs and are a responsible use of public funds;
- The extent to which the project might benefit or burden historically or currently marginalized communities both now and in the long term;
- The extent to which the project achieves geographic equity; and
- Other factors to be determined by the QE or Advisory Committee.

Oregon Public Transportation Plan Goals

QEs are required to identify how each STIF Plan Project is consistent with OPTP goals and policies and are encouraged to review and consider these goals prior to selecting Projects that will be included in their STIF Plan.

Goal 1: Mobility – Public Transportation User Experience – People of all ages, abilities, and income levels move reliably and conveniently between destinations using an affordable, well-coordinated public transportation system. People in Oregon routinely use public transportation to meet their daily needs.

Goal 2: Accessibility and Connectivity - Getting from Here to There – Riders experience user-friendly and convenient public transportation connections to and between services and travel modes in urban, suburban, rural, regional, and interstate areas.

Goal 3: Community Livability and Economic Vitality – Public transportation promotes community livability and economic vitality by efficiently and effectively moving people of all ages to and from homes, jobs, businesses, schools and colleges, and other destinations in urban, suburban, and rural areas.

Goal 4: Equity – Public transportation provides affordable, safe, efficient, and equitable transportation to jobs, services, and key destinations, improving quality of life for all Oregonians.

Goal 5: Health – Public transportation fosters improved health of Oregonians by promoting clean air, enhancing connections between people, enabling access to services such as health care and goods such as groceries, and by giving people opportunities to integrate physical activity into everyday life through walking and bicycling to and from public transportation.

Goal 6: Safety and Security – Public transportation trips are safe; riders feel safe and secure during their travel. Public transportation contributes to the resilience of Oregon communities.

Goal 7: Environmental Sustainability – Public transportation contributes to a healthy environment and climate by moving more people with efficient, low-emission vehicles, reducing greenhouse gases and other pollutants.

Goal 8: Land Use – Public transportation is a tool that supports Oregon's state and local land use goals and policies. Agencies collaborate to ensure public transportation helps shape great Oregon communities providing efficient and effective travel options in urban, suburban, and rural areas.

Goal 9: Funding and Strategic Investment – Strategic investment in public transportation supports the overall transportation system, the economy, and quality of life. Sustainable and reliable funding enables public transportation services and infrastructure to meet public needs.

Goal 10: Communication, Collaboration, and Coordination – Public and private transportation providers and all levels of government within the state and across state boundaries work collaboratively and foster partnerships that make public transportation seamless regardless of jurisdiction.

Suballocation Method

QEs such as LTD are required to collaborate with Public Transportation Service Providers (PTSPs) and other potential subrecipients to develop a method for suballocating STIF Formula funds that uses data on where employee payroll tax revenue is generated, as STIF Formula funds are generated primarily via a payroll tax. This sub-allocation method should be used as a starting point for STIF Plan funding and prioritization process.

LTD staff hosted a meeting on September 17, 2026, for PTSPs and potential sub-recipients in the region and discussed four possible sub-allocation methods. Participants agreed to use a sub-allocation method that divides Lane County into the "LTD in-district" area and the "Out-of-District" area. This method has been used in previous biennia because it provides the most flexibility for overall project selection and funding.

LTD TWO-STEP REVIEW PROCESS FOR STIF FORMULA PROJECTS

STIF Formula funds account for 90% of the STIF revenue generated in Lane County. To ensure the best and most effective use of STIF Formula funds, LTD is using a two-step framework to evaluate projects submitted for the FY2028-FY2029 STIF Formula funding cycle.

The STIF Formula prioritization framework separates project eligibility and categorization (Step 1) from project prioritization (Step 2) so that only projects that meet program requirements advance to scoring and ranking by the LTD STIF Advisory Committee.

Step 1: Eligibility Screening and Project Categorization

Projects will be screened for eligibility and categorized by LTD staff. Project eligibility may change from year to year. All projects must meet eligibility requirements of the upcoming biennium. Future STIF Formula funding cycles may use updated prioritization frameworks. Table 1 shows the eligibility criteria for projects.

Table 1. STIF Formula Fund Project Application Eligibility Criteria

Eligibility Criterion	**Eligible/Ineligible**
Eligible STIF Formula activity	□ Eligible ☐ Ineligible
Appears in an adopted local plan or adopted policy	□ Eligible ☐ Ineligible
Is a strategic fit with LTD and local transportation priorities	□ Eligible ☐ Ineligible
Serves a public transportation purpose, i.e., is promoted to and available to the general public	□ Eligible ☐ Ineligible
Consistent with Oregon Public Transportation Plan goals	□ Eligible ☐ Ineligible
Does not supplant existing local transit funding	□ Eligible ☐ Ineligible
Can be delivered within the STIF Plan period or qualifies as carry-forward project	□ Eligible ☐ Ineligible
Meets applicable legal, ADA, environmental, procurement, and reporting requirements	□ Eligible ☐ Ineligible
Includes scope, budget, outcomes, and responsible agency	□ Eligible ☐ Ineligible

Shows adequate organizational capacity, including sustainable long-term operating commitment and capacity to deliver and maintain the project	□ Eligible ☐ Ineligible
If this project involves purchase of an asset, applicant shows considerations for asset lifecycle and stewardship	□ Eligible ☐ Ineligible
Transit-related bike/pedestrian projects demonstrate physical or functional relationship to transit	□ Eligible ☐ Ineligible
Fixed-route projects have a GTFS process in place	□ Eligible ☐ Ineligible

Step 2: Project Prioritization Methodology (100 Points)

LTD staff will categorize eligible projects according to established funding priorities:

- **Priority 1:** Statutory/Required commitments (such as services benefiting older adults & people with disabilities, student transportation, or compliance requirements)
- **Priority 2:** Preserve existing service (operations, fleet replacement, state of good repair)
- **Priority 3:** Strategic enhancements (service expansion, customer experience, technology, access improvements)

LTD's STIF Advisory Committee will review all eligible applications, and applicants will be given the opportunity to present their proposed projects to the Committee.

Members of LTD's STIF Advisory Committee will use scoring sheets to then determine a score for each eligible project as part of LTD's Project Prioritization Methodology. Table 2 serves solely as an example of this scoring sheet and may be altered by LTD staff following review by the STIF Advisory Committee. Each grant biennium will incorporate an opportunity to review and update the most recently used scoring sheet.

The score of a project does not guarantee funding for the project. LTD staff and STIF Advisory Committee members also provide qualitative input on projects that may impact project prioritization.

Table 2. LTD STIF Advisory Committee Scoring Sheet

Category	Points	Purpose
Mobility & Ridership Benefit	25	Improves access, reliability, ridership and customer mobility

Equity & Transportation Disadvantage	25	Benefits low-income households, older adults, people with disabilities, youth, and transit-dependent populations
Service Preservation & State of Good Repair	15	Maintains existing services and critical assets
Coordination & Regional Connectivity	15	Improves transfers, partnerships, first/last-mile access and network integration
Climate, Land Use & Community Outcomes	10	Advances climate, housing, land use and mode-shift objectives
Readiness & Deliverability	10	Demonstrates ability to successfully deliver and maintain the project
Total possible points	100	

Project Scores

Project scores from the Project Prioritization Methodology determine an initial project sorting. Using the scores and priorities as guidelines, the STIF Advisory Committee will develop their recommendation to forward to the LTD Board of Directors as the region's QE.

Table 18. Project Scores and Recommendations

Score	**Recommendation**
75-100	Strong recommendation for funding
55-74	Fund if resources allow
<55	Not recommended unless funding remains. Generally, not recommended.

Using the scores and priorities as guidelines, the STIF Advisory Committee will develop their recommendation to forward to the LTD Board of Directors as the region's QE.

PROJECT SUBMITTAL

The Advisory Committee will submit a project list to the LTD Board to review and approve. The LTD Board is allowed to make changes to the finalized project list but will need to explain in their STIF plan if they do not follow Advisory Committee recommendations. The LTD Board will then finalize the STIF plan

and submit to the Oregon Department of Transportation (ODOT). The deadline for submittal to ODOT is January 14, 2027.

Plans will be reviewed by ODOT and then forwarded to the Oregon Transportation Commission. Plans are not final until adopted by the Oregon Transportation Commission.

FORMULA FUND SCHEDULE (SUBJECT TO CHANGE)

August 19, 2026 – ODOT Notice of solicitation (applications and guidance) sent out for Formula Funds

September 11, 2026 – LTD sends out the formal call for projects for Formula Funds to Public Transportation Service Providers in Lane County

October 8, 2026 – Applications for Formula Funds due to LTD

December 16, 2026 – STIF Advisory Committee makes final STIF Formula Fund Plan recommendations to LTD Board of Directors; LTD Board of Directors approves final STIF Plan

January 20, 2027 – LTD Board of Directors approves final STIF Plan if not approved on 12/16/26

January 14, 2027 – ODOT deadline for all Qualified Entities to submit STIF Formula Fund Plans. If the LTD Board of Directors does not approve the STIF Plan until January 20, 2027, LTD has permission from ODOT to submit the STIF Plan following the January 20 Board meeting.

STIF PROPOSED PROJECT SUMMARIES

PROJECT A | LANE TRANSIT DISTRICT

Basic Project Information

Public Transportation Service Provider: Lane Transit District

Project Description: LTD operates 30 fixed route bus routes and two EmX lines delivering over six million boardings annually. In addition, LTD's RideSource service provides more than 360,000 trips each year to older adults and people with disabilities who cannot use fixed route service. LTD operates transportation to help people travel within our metro area and to connect rural residents to the metro area for shopping, work, education, and healthcare. LTD provides free fares for older adults and K-12 students as well as free fares in partnership with non-profit organizations. On-demand service is offered in addition to traditional transit. This biennium, LTD will invest in our metro bike share infrastructure to help public transit users make first and last mile connections and to make getting around our community more accessible. LTD's future plans to modernize and integrate our technologies to plan trips, manage fares, and integrate with the broader transportation system are also projects highlighted in the upcoming biennium.
